Welcome to my VIRAL TRAFFIC MACHINE!

Thank you so much for picking up this little gem..

I really hope that you will find it an awesome way to promote your stuff..

In this guide, I will show you **2 different strategies** that both have their pro's and con's.

As I said on the sales page, this is soo freaking easy, you will be able to set up your first campaign in minutes..

Soo.. What's it all about then?

Well, we are gonna use a site called **Rapid Workers** in order to get our posts spread like wildfire in different niche FB groups..

This method will work for every niche out there, as long as you're not into "underwater knitting" or "breast milk panna cotta recipes"

The later is probably a real thing.. **(It's a sick world)**

Anyhow..

Every niche has 100's if not 1000's of active Facebook groups with a massive amount of dedicated followers.

We want to tap into those audiences and extract people who might be interested in what we have to offer.

It's important that we don't come off as salesy or someone who just want peoples money..

That's why we need to be a bit smarter than the average group spammer.

We want to build up curiosity with our post..

Making people wanna know more about what we are up to..

As I mentioned earlier in this guide, **I will show you 2 different strategies** that you can use.

The first strategy is to post a link to a blog post, Medium article or YouTube video.

Content like that will not come off as spam since **you are giving value first.**

==(Your content should of course push people to opt-in to an email list, complete a CPA offer or buy something low ticket from you.)==

The second strategy is to just post an image to the groups..

With the image, you should have a message like =="Comment CASH to learn my method! (YOUR NAME) will reach out and show you how to get it"==

It needs to say your name, as of your facebook account since YOU will answer people, not the author of the post.

This method will be a little more work since you need to DM all people who commented on your post and then reply to their comment with "DM sent".

The reason why the second strategy is the stronger one, is because of how Facebook's algoritm works..

IT FAVOR ENGAGING POSTS, and will show it to more people in the group.

If you have a little time to engage with the people who are commenting on your posts, you will soon get lots of leads into your business.

Don't worry, this was just a brief introduction to the methods..

I will go over both methods in detail below.

==**LET'S BEGIN!**==

First of all, you need to head over to **rapidworkers.com** and create an account.

Then you will need to deposit at least $10, so that you can pay your workers.

The top up of money is usually instant, and you will be able to proceed with your chosen method.

STRATEGY 1

Get the link to your blog post, Medium article or YouTube video.

Go to **My Campaigns** in the top of the site and then click on **New Campaign**.

Here are the settings I recommend that you use.

20 people posting in 5 groups each is 100 posts in 100 groups

You can of course post to unlimited groups if you just add more money into it and hire more people.

As you can see, the cost is $9.31 in total.

Now, here is the template you want to use.

USE THIS TITLE: Post Link in 5 FB Groups (Fast Payment)

Put in your url and niche in the message below, then copy everything between the lines and paste it into the task instructions on Rapid Workers

————————————————————————————————
1: Copy this link → My Post
2: Post the link in 5 OPEN ENTER YOUR NICHE HERE Facebook groups. Follow Instructions Here
3: Say something nice about the link you posted.
————————————————————————————————

There will be a box below that says "Required proof of job finished"

There you will write "Copy the links to all group posts and paste them as proof of work. If the links aren't live, you will NOT get paid"

There are options for you to pay more for extras, like bolded font and featured task.

I haven't used them myself.. You can try it out if you want faster exposure to your task.

Just click submit campaign and you are off to the races..
Your campaign will be reviewed before it goes live..

This is usually done in a minute or two..

Id	Title	Category	Subcategory	Status	Tasks Status	Pending Review	Actions
1	Post In 5 Facebook Groups	Facebook	Post in Groups	▢ running	0/5	3	View Task Status
2	Post Link in 5 Facebook groups	Facebook	Post in Groups	▢ running	0/20	1	View Task Status
3	Post Link in 5 Facebook Groups (Fast Pay...	Facebook	Post in Groups	▢ running	2/20	1	View Task Status

You can then see the campaigns you have submitted, and if they are running or not.

Task Status will show the amount of completed tasks that you have approved.

Pending Review is the amount of work you need to check out and approve.

Under **Actions**, you can see the **View Task Status**.

Click that in order to see the work people have delivered to you.

If you click on Details, you will see all the groups your worker has posted in.

Once you see that everything is correct and the links are working and are live, you can click on Satisfied, and the work will be approved.

As you can see in the image above, I have denied one worker payment since he had posted the link 5 times in the same group.. **(YES, sometimes you will get people who can't read instructions).**

So, if something isn't right, just click Not Satified and the worker will need to do it again.

A WORD OF WARNING!

If a worker have 4 out of 5 links live and working in groups, approve them..

I know, it's not 100% correct but if you start to click Not Satisfied on every other task completed, Rapid Workers will start to think that you just want people working for free.

It's peanuts anyway..

This is the results from the last campaign I run..
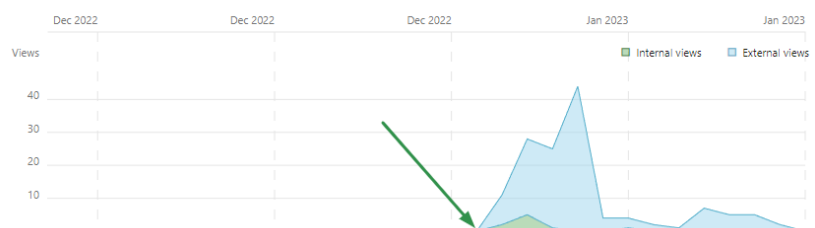

I just run the FB traffic to a Medium.com post, in order to see exactly how many clicks I could get.

This might not look that impressive, but out of these 129 external views, I got 48 email subscribers..

I always try to improve every detail in every campaign, so I will continue to run this same campaign but with other images.. **You never know when you strike GOLD!**

For the second strategy, we will go with the hope of engagement to our posts.

It's key that you first find an image that is a **scroll-stopper**, meaning, it will need to be a bit crazy..

Let's take the niche Dogs as an example..

Here are 2 images I found while searching for "crazy dog images"

They both look crazy, and **the person scrolling the feed WILL stop** just to see what's going on..

Now, you need to put some call to action text on the images..

You can easily edit the image in a free online tool like **Picfont.com**

Here's my result after 2 minute of editing

YES! It looks really weird, and that's the whole point of it!

ALRIGHT..

You now have an image you want to use.. then it's time to go to the next tool.

You will want to upload the image you just edited to **imgbb.com**

Once you have uploaded it, you will get a link..

You will then copy and paste that exact link into the instructional message below where it says "ENTER YOUR URL HERE".

—————————————————————————————
1: Save → This Image
2: Post the link in 5 OPEN ENTER YOUR NICHE HERE Facebook groups. Follow Instructions Here
3: Say something niche about the link you posted.
—————————————————————————————

DONE!

Just follow the same process as in strategy 1 and you will have a campaign up and running.

Then, you will need to check all 100 posts, DM the ones that have commented on the post and then like and answer their comments of the post **(That will make FB's algo go crazy and show it to more people)**
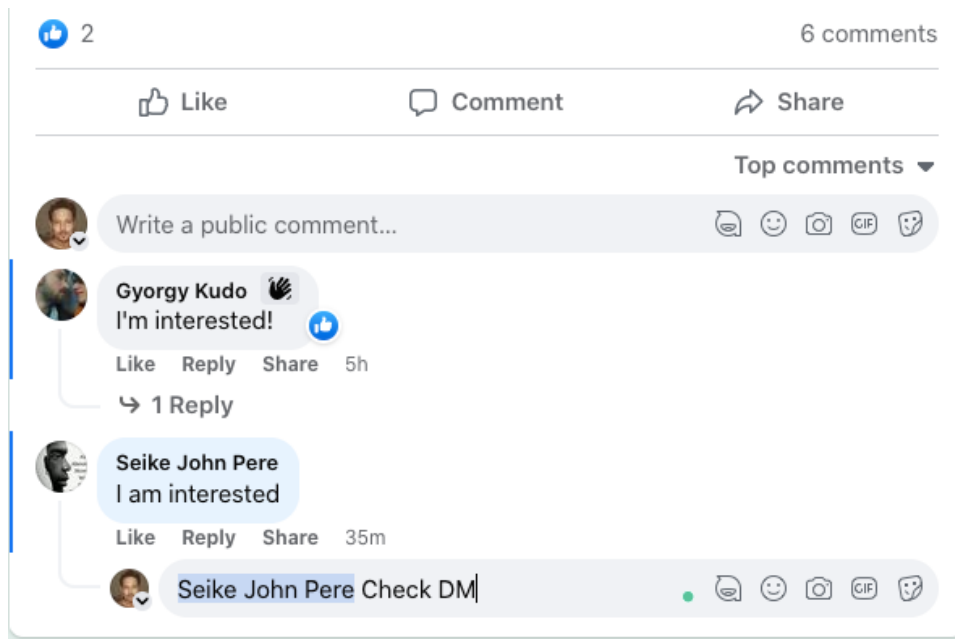

Just like I'm doing in the image above (image is from a totally different campaign I run a while ago)

It's a lot of work, **but it will give you LOTS of leads as well!**

To use the dog example again..

Take a CPA offer that give away dog food samples.

CPA offer like that usually pay anywhere from **$1-$5 for a zip submit..**

But that's just **ONE** way you can make money with this technique..

The best way, imo, is to **build up an email list** of people that you can message as much as you want..

That's where the BIG money is at..

LAST WORDS

This method is legit, it just works if you work it..

If you have less cash and more time, you could even do it without hiring other people to post for you..

Just join 5-10 groups each day until you are a member of 100 groups and start posting yourself..

It will take some elbow grease, but this is working like **CRAZY!**

If you're not seing the results you want, you might just have to tweak the message in your posts.

As I said in the beginning.. YOU DON'T WANT TO COME OFF AS SPAMMY or someone who just want peoples money.. That will NEVER work out for you..

You need to be smarter than that..

Give, Give, Take!

That's it!

I thank you so much for grabbing this product..

I hope that you will have great success following the strategies in it..

Rock On!

Best

Here goes the usual *"Don't share this product with anyone else"* and *"Don't copy it and sell it as your own"*.

I'm realist enough to understand that people who share other people's product don't give a living shit about copyright laws..

Please, keep it to yourself and you will stand a much better chance of not saturating the method.
